

Private Equity Holding AG

Net Asset Value as of August 31, 2017

Monthly Development

As of August 31, 2017, the Net Asset Value (NAV) per share of Private Equity Holding AG stood at EUR 75.43 (CHF 86.19). This represents an increase of 0.2% in EUR and 0.5% in CHF, respectively, since July 31, 2017.

In August, PEH's portfolio performance continued on its positive trajectory despite the strong FX related headwinds, posed by the continued strengthening of the EUR against the USD. Since beginning of 2017 the USD has depreciated by 13% against the EUR, a development which has continued to weigh on the positive overall performance of PEH's portfolio.

Total distributions received in August amounted to EUR 4.4 million. The largest inflow came from Doughty Hanson III, which distributed the remaining proceeds from the sale of LM Wind Power, a supplier of rotor blades to the wind industry.

The number of outstanding shares used for calculation of the Net Asset Value per share amounted to 2,714,320 as of August 31, 2017 (July 31, 2017: 2,715,008). The calculations are prepared in accordance with International Financial Reporting Standards (IFRS) and pursuant to the guidelines of Invest Europe (formerly known as the European Venture Capital Association). The valuations of the fund investments are based on the most recent reported net asset values (NAVs) of the funds. In estimating the fair value of unquoted direct investments, Private Equity Holding AG considers the most appropriate market valuation techniques. The fair value of listed direct investments is the market value. The NAV of Private Equity Holding AG is calculated at the end of each month under a going concern assumption and usually published within six trading days after the cut-off date. The different reporting cut-off dates of the individual companies and funds in which participations are held can lead to short-term distortions and cause discrepancies between the published NAV and the actual total value of Private Equity Holding AG's net assets.
